

News: July - August 2024

Thank you for your prayers

Hello again, Mr.

It's amazing that two months have passed since my last news letter, and even more incredible is that on the 16th of this month it will already be a year since I left Venezuela.

What else can I say besides how grateful I am to God, for always being there, because I know that even at this stage of my life, He cares for me.

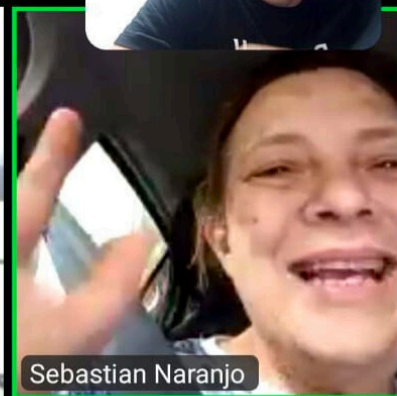

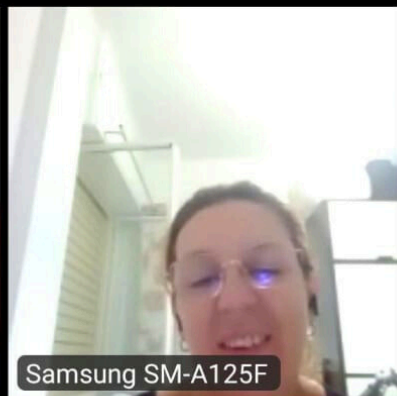

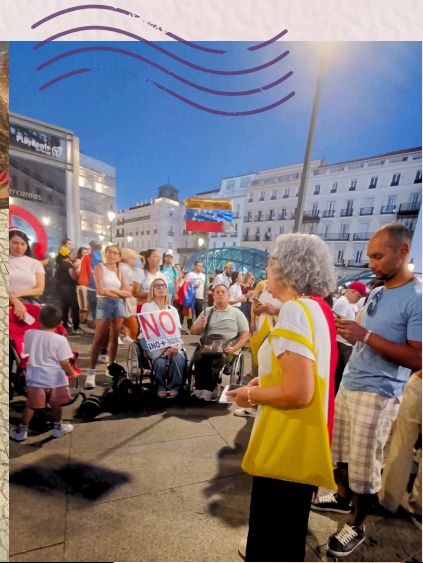

His care was very special during the month of July when I had COVID and this time it was really very bad, even more than the first time. The effects felt for a while and during that time I fell and broke a rib, which, as the doctor said, was quite a struggle. But the hand of God was with me and the bone even healed faster than the six weeks the doctor had estimated. Glory to God.

My grandson Miguel is still on his mother's lymphocyte infusion treatment and we believe that God is doing his thing in that little body.

However, in July we were able to complete the entire course of **The Unfinished Story for Youth (TUSfy)**, videos, printed manuals and everything else needed. We are now entering the period of doing pilot courses to review translation and other technical details.

To date we have conducted three virtual trainings, including one for Latin America and another in person.

This month, despite the general summer break, we have been active in private and public prayer for our Venezuela, taking every opportunity to proclaim that Christ is the only answer.

Join me in thanking the Lord for:

- My health and the good medical care that the Lord has allowed me to access here.

- For the favorable evolution of Miguel's health.

- For a goal achieved with the translation of **TUSfy**.

- For people who have heard the Good News during demonstrations, that these seeds can bear fruit.

And the challenges continue...

Pray with me for:

- The pilot courses we must do both in Spain and Latin America.

- For churches here and in Latin America willing to break with the patterns of custom and decide to see the opportunities that God is presenting at our doorstep.

- For provision to acquire some things that are very necessary to relieve the pain caused by osteoarthritis in my feet and knees.

- For provision for my health insurance.

- For my next trip to the United States to be with my other son, may I be a blessing for them and may the Lord open some doors in the American church to raise an stable support.

- May the Lord fill me with His grace to continue advancing on the path of mobilization of the church in Spain.

- For under age migrants who arrive in Spain alone, may the church awaken to the need to support them not only by presenting them Christ, but by helping them to adapt to this new culture, taking into account the abysmal differences between cultures of tribal nature and Spanish culture.

See you next time.

In Christ,

Belkys Moreno
