Preparing others (discipleship).

"The Unfinished Story" in the province of Santa Fe.

During July we ran the course "The Unfinished Story" in the province of Santa Fe, for three churches that came together in order to receive the course. At the end, the pastor of one of the churches told the participants: "If the Lord is calling any of you to go out for missions or to get specifically involved in some area of the missions, please let us know because we want to help you in the process of putting it into practice."

"MOBI101" in the province of Cordoba.

Speaking with the pastors who coordinate the missions department in the church where we ran this course, they told us: "we saw that whenever we held missionary conferences, the people who attended were not many and they were always the same ones who participated not only in our conferences, but also in those of other churches, so we decided to change this and stop doing those types of meetings for the "missions people" and involve the entire church in missions in each service. Missions are now for the whole church... and the change was tremendous, people got involved in prayer, offering and evangelism".

We provide this course for the 22 participants of the third level of the church's Missions school. Some of them were also preparing to go out to work among the less reached peoples groups.

One of them told us: "This course was a challenge to continue and focus more deeply on my role in God's mission. Everything we learn these days has added up."

***OM's team Retreat.**

In August we were able to spend a weekend together with the OM's Argentinean team. We talked about the vision, values and purposes of OM worldwide. We had some planning meetings and also we have a prayer time for the least reached and for each area of OM's ministry in Argentina.

***Haedo Mission conference.**

In September, the church of Haedo (province of Buenos Aires), ran their annually missionary day where they offer workshops and preaching about missions and evangelism throughout the day. Daniel was giving a workshop on the subject of "Basic members care of Workers", and how to organize a missions department in the local church.

Prayer points,

- ✚ We thank God for the opportunities for service and mission mobilization, where we can see Him working in the hearts of people.
- ✚ We give thanks for the people we serve with and the team we can build by working together.
- ✚ We ask for the leaders and pastors of the churches in Santa Fe and Córdoba, whom are challenging their own congregations to get involved in missions and going alongside with them in that process.
- ✚ We thank God for his constant faithfulness in our lives and also for his provision every month.
