

December 2025.

Esposito family
Daniel, Alejandra, Priscila & Ruth.

We want to wish you a Happy and blessed New Year!

This is a summary of what we have been able to do during 2025, together with a team of wonderful people whom the Lord also called to work in His mission.

In the area of **Training**, we were able to do:

- A training course for facilitators of mobilization courses where we were able to prepare 5 people.
- A Kairos course with 17 participants. Also, the new facilitators were also able to get involved in this course.
- An Interface course was held in northeastern Argentina, attended by 50 people over two days, from seven churches of the region. One of the pastors decided to extend the training to the rest of his congregation and prepared himself to do so.
- Throughout the year, we held six workshops for youth leaders on different topics, which were attended by over 140 people. One of the topics covered was "working in small groups with teenagers" as a discipleship tool.
- We ran two sending courses where 17 people were attending. Some to leave in the short term, others to join the OM Argentinean team, and some to define their calling and be ready for the right moment.

About workers, we can give glory to God because He continues to "call workers into the harvest" in answer to our prayers. This is our team:

- OM workers, Argentinians living abroad: 13 adults + 4 children.
- Preparing to leave next year: 7
- Simply Mobilizing team: 25 facilitators.
- OM Argentina team: 32 people.
- TeenStreet team: 25 teen leaders.

Throughout the year we participated in several **activities** that allowed us to present the ministry and provide practical tools for the local churches and the team itself:

We had two team gatherings that were a great blessing, allowing us to share wonderful moments of service, strengthen bonds of friendship, focus on our ministry, and the tasks that each of us carries out during the year.

One of the key activities for developing this ministry are the **prayer meetings**; throughout the year, these were held monthly, both virtually and in person. In these meetings, we didn't just ask and give thanks to our good God, but we also shared His mission to reach all the people.

We were able to present and cover with local offerings 3 financial aid projects for Asia and Africa through OM.

We began 2026 in Trinidad and Tobago, where we will be serving until February aboard the Logos Hope. Here, we will be involved in mobilization activities, training facilitators for the Kairos course, working onboard in various departments, and spending time with the five Argentinians already onboard and the four who will be joining us this month.

Prayer points:

- ✚ We thank God for this year of ministry and for His work in the lives of each person with whom we shared experiences and service.
- ✚ We thank for the trip to Trinidad and Tobago and for God's provision.
- ✚ We thank for those who faithfully pray for, support, and give to this ministry.
- ✚ We pray for our time on board so that we may be a blessing to those around us.
- ✚ We pray for more Argentine workers going out to serve in different fields.
