

BREAKING LIMITS WITH BASKETBALL

The Lord commanded me to teach you these laws and teachings, so that you may obey them in the land He gives you. So that all your life, you, your children and your grandchildren will always worship the Lord, obey His commandments and enjoy long life.

Hebrews 12:11-12

At Fundación Educativa Bendición, we seek a personal comprehensive development of those we reach. We have managed to be the only inclusive school in Santo Domingo Oeste, in which we receive children with special needs. We are blessed to have a team of trained psychologists who guide our staff in order to meet the needs of our students.

Not only do we work with the students at Colegio Cristiano Berea, but also I work as a volunteer coach for the Avanzada Juvenil basketball club. This has allowed me to lead many young people to Christ and get them off the streets and away from drugs.

We have been able to take drug addicts to rehabilitation centers, as in the case of Natanael. He is currently finishing his rehabilitation process and in two months, he will be entering the university to study Physical Education with a scholarship that we got him.

Thanks to sports, we have been able to get scholarships for the players in schools and universities.

A great achievement was to be able to form the basketball league of Santo Domingo Oeste, where through this the players receive payment for playing thanks to the sponsors of the event and the tickets that people pay to watch the games. In addition, other leagues can watch and hire them. Before the pandemic, our team became champions at the last tournament that was held.

It is very gratifying to know that many kids who come from very dysfunctional families, today they have come to know Christ, finish their studies, and have a home that serves as a model for others in the community.

I thank God for his mercy and for allowing me to see how little by little things are changing **and how we are transforming our community one student at the time.**
